Profile

My time at Clark Wilson this summer has been nothing short of amazing. As a summer student I was given a wide variety of interesting opportunities, ranging from researching legal issues, editing and reviewing shareholder agreements, drafting separation agreements, and even appearing for a client in small claims court. Although the work opportunities were so interesting, my favourite part of the summer has been connecting with the other students at Clark Wilson. The supportive work environment created by the students and the firm has made me feel comfortable while learning new skills and taking on challenging work assignments. As this summer has been great, I'm looking forward to returning to the firm next year for articling!
