Profile

With more than a decade of paralegal experience, Lu appreciates how complex real estate transactions can be for every party involved. With this in mind, Lu is ready to go the extra mile to ensure a smooth, efficient, and successful outcome for our clients. Under the guidance of our Commercial Real Estate group lawyers, Lu takes the time to walk clients through every step of a real estate transaction and address any questions or concerns that arise in the process.

Lu works closely with our lawyers to assist a range of clients, from real estate developers to individual investors, on all aspects of real estate transactions. In particular, Lu helps on matters involving acquisitions and sales of real estate, commercial lending, subdivision developments, title searches, reviews, due diligence searches, and project closings.

Before becoming a paralegal, Lu studied engineering and worked in the field at the beginning of her career. Lu's prior experiences equip her with strong analytical and problem-solving skills which are invaluable when dealing with the often complex nature of real estate matters.
