Profile

"My summer at Clark Wilson has provided me with endless, hands-on opportunities to work with an incredibly supportive team of partners, associates, paralegals and staff. Within my first month of being at the firm, I was attending discoveries, mediations and client meetings with partners and associates who always took the time to support my learning. From working in-depth on insurance files, to assisting with firm presentations, drafting court documents to attending chambers applications, the opportunities for practical learning are endless. It has been rewarding to see how the work I do as a student has real world impact for the firm and their clients."
