Profile

"Having lived and grown up in Vancouver, it is exciting that I now have the opportunity at Clark Wilson to help B.C. businesses that I am familiar with advance and adapt to a rapidly changing landscape. I have particularly enjoyed being able to translate my previous experience working in-house at a local start-up company to help other start-up companies at Clark Wilson develop their businesses. I am constantly challenged with meaningful work, and am grateful to be surrounded by lawyers, students, paralegals and staff who are all supportive and invested in my professional development."
