Profile

"My summer at Clark Wilson has been a fantastic experience. Not only is there a warm and energetic firm culture, there is also a wide range of opportunities to engage with different legal issues. Within my first month, I had the opportunity to assist with a major private acquisition, speak to a client on a one-on-one basis over the phone, as well as draft contracts and research topics in Aboriginal Business, Real Estate, Strata Property, Labour and Construction Law. On a daily basis, there is an opportunity to connect with lawyers from all over the firm. As a student, reaching out to the firm's many lawyers across the wide range of practice areas is an invaluable learning experience. The friendly atmosphere makes it easy to stop by anyone's office and I appreciate the time the lawyers and staff take to teach me and provide me with the information I was looking for. The work at Clark Wilson is both challenging and interesting and I have been supported the whole way through. "
