

Imroz Ali

2021-22 Articling Student
University of Ottawa

Profile

"My summer at Clark Wilson allowed me to put my legal education into practical use. From the beginning of my term, I worked on challenging legal concepts that I never come across in law school. The high quality of work strengthened my legal research and writing, and critical thinking skills. I was also grateful for experiential learning opportunities. I participated in mediations and client meetings and assisted the lawyers with research on those files. A fantastic feature of Clark Wilson was that I worked on files in a variety of practice areas and I gained exposure to many areas of law. Surrounding my experience was the strong mentorship and guidance I received from the associates and partners of this firm and I am excited to return to Clark Wilson for my articles next year."
