Profile

During my summer at Clark Wilson, I was given the opportunity to assist with a broad range of legal work that allowed me to navigate the practice areas I would like to pursue in the future. I felt incredibly supported by the lawyers at Clark Wilson, and was always offered encouragement or help if it was needed. I was able to deal with clients personally, draft numerous court applications, attend and observe trials, and hone research skills in a way that wouldn't have been possible in a school setting. I cannot speak highly enough of my summer experience with Clark Wilson, and am thrilled to be returning in 2022 to complete my articles.
