### Profile

---

My summer experience at Clark Wilson was amazing because of the people and the variety of work. I couldn't have asked for a better summer student cohort to share the experience with. Right from onboarding, the CW team made sure the students got off to a running start and provided ongoing support throughout the summer. The lawyers took time to go for "walk and talks" to get to know the students and discuss their practices. My principal and associate mentor were available to answer questions and offer advice. The structured rotation provided the opportunity for me to take on meaningful litigation and business assignments across the majority of practice groups. The summer program at Clark Wilson really pushed me out of my comfort zone while providing the necessary resources and support to succeed.
