Profile

"As a student, it's incredibly motivating to be doing work that has real impact. Throughout my summer, I have been corresponding with clients, drafting documents, attending client meetings, and working in up-and-coming areas of law. Guidance and mentorship are built into the practice of every lawyer I have worked for, which has helped me learn so much in a short time. I am grateful to work in a firm where I am supported in my learning and development through challenging, meaningful work."
