Profile

"This summer has been an incredible learning experience. Despite the pandemic, Clark Wilson made our summer as close to normal as possible. Although the pandemic has moved life to a virtual space, I did not feel disconnected. There is no shortage of opportunities to learn from the lawyers. I assisted with closing documents for a large transaction, attended a virtual discovery, and prepared research memos and blogs. During these assignments, lawyers were always willing to answer questions and provided details on the file. The firm truly espouses a collegial environment - I have bonded closely with the summer students and my mentors through shared experiences. I am looking forward to coming back next year and learning more from everyone."
