Profile

Throughout my summer at Clark Wilson, I gained invaluable practical experience through exposure to a variety of practice areas. I received the opportunity to further hone my legal research and writing skills, draft pleadings, attend discoveries, and most importantly, to play a role in making a difference in the lives of our clients. The firm fosters an environment in which learning is valued, questions are encouraged, and interpersonal relationships are cherished. Because of this great experience, I could not be more excited to be returning to Clark Wilson to complete my articles.
