Profile

There are two distinct phases to successful private company transactions. The first is to complete the transaction on time and with favourable terms. The second is to provide support and opportunity for growth post-transaction. Our Private Company Mergers & Acquisitions Group incorporates both phases into their service while utilizing Leslie's support.

Leslie is an experienced paralegal within the team, specializing in corporate reorganizations and mergers & acquisitions. She regularly supports our lawyers in completing transactions, both large and small, for clients across a wide variety of industries. Leslie thoroughly understands the steps necessary for a successful transaction and provides our clients with creative, thoughtful and practical service to help them efficiently achieve their corporate goals.

Leslie particularly enjoys working in this field of law as it gives her the opportunity to exercise her excellent problem-solving skills and find helpful solutions to obstacles as they arise. Leslie also enjoys playing a part in the journey of private company clients as they navigate from incorporation to growth and expansion.
