Profile

My summer at Clark Wilson was fantastic. I had the opportunity to experience a diverse range of legal work, from drafting memos and settlement letters to preparing contracts and closing documents. I also had the chance to attend client meetings and seminars, where I gained valuable insights into the business of law. I loved that I was able to knock on anyone's door, whether it be a partner or an associate, and be greeted with enthusiasm to share knowledge on any questions I had. I've grown a lot over the summer through hands-on experience and the excellent mentorship that the firm provides. I'm eager to continue learning and contributing to Clark Wilson when I return next year to begin my articles.
