Profile

Summering at Clark Wilson has been nothing short of incredible. Whether it's been attending chambers, drafting affidavits, assisting in legal research or compiling evidence packages - I have been given so many opportunities to explore interests. Clark Wilson provides an excellent environment to foster growth and inspire curiosity, with a formal rotation, I have gotten to learn from lawyers across the firm in a variety of practice groups. These experiences have helped with confidence in approaching new legal questions. With both my associate mentor and principal, I have felt so much support throughout this experience, and I cannot wait to return to complete my articles alongside my cohort.
