Profile

"The world you desire can be won. It exists, it's real and it's possible". This has been a fundamental quote which has resonated with Michael as he works to help his clients achieve their goals in commercial real estate and their businesses.

Michael embraces every opportunity to play a role in developing the tangible assets in which people can live and work, and to ensure success in his clients' ventures. As someone who was born and raised in the region, he's cognizant of how vital it is to build our city to be a practical and enjoyable place to live.

His focus is to assist clients in complex property transactions. Michael has helped clients in numerous transactions, one of which involved the acquisition of a 135,000+ square foot, \$100-million property in the heart of downtown Vancouver. In this transaction, Michael strategically navigated several complex environmental and air space parcel considerations.

As the technology space develops, Michael helps bridge the gap between tech companies and regulatory compliance. He advises new ventures regarding compliance with the Proceeds of Crime and Money Laundering Act, as well as corresponding Financial Transactions and Reports Analysis Centre of Canada (FINTRAC) rules.
